ELEMENTS OF RISK:

Educational outdoor activity programs, which would include activities such as skating, sliding, skiing, and snowshoeing, which are being offered, involve certain elements of risk. Accidents may occur while participating in these activities. These accidents may cause injury. A few examples of the type of accident which one is at risk of having occur while doing these activities are:

- Injuries related to outdoor activities
- Cold weather conditions
- School bus transportation required

Please notify us of any food allergies if it applies, please also have emergency medical supplies available, if the student requires same (ex. Epi-pens, allergy medication, broncho-dilators, etc.). If a student is on a medication, this medication will be administered by the homeroom teacher. Please send a letter or email to the homeroom teacher identifying the medication, the student, and giving instructions on how to administer.

These accidents result from the nature of activity and can occur without any fault on either part of the student, or the School Board or its employees or agents, or the facility where the event is taking place. By choosing to participate in the activity, you are assuming the risk of an accident occurring. The chance of an accident occurring can be reduced by carefully following instructions at all times while engaged in the activity.

If you choose to participate in winter camp in January/February 2017, you must understand that you will bear the responsibility for any accident that might occur. The Hanover School Division does not provide an accidental death, disability, dismemberment, or medical expenses insurance on behalf of the students participating in this activity.
